

# Global Solutions Insurance

Experienced team that understands the global challenges

## About us

Established in 1982, GIB Insurance Brokers is South Africa's largest independent insurance broker, with its headquarters in Johannesburg and additional offices in Cape Town and Durban.

The GIB Group understands that insurance and risk management are global in nature, requiring a robust international network for effective financial solutions. This network of trusted partners provides specialized expertise and local guidance, ensuring full compliance with regulations in each respective territory. As the world's largest insurer, Lloyd's collaborates exclusively with tribunalized brokers—a distinction held by the GIB Group since 1986.

Through the GIB Africa Alliance, the company extends its services to most African nations. The Global Solutions team oversees global placements for GIB Group clients expanding internationally and manages referrals from global partners requiring assistance within Africa.

## Services, advice and guidance

- Management of referrals from global partners needing assistance in local markets
